

# Fact Sheet

## Water Tank Features

### Company

Heritage Water Tanks is an Australian family owned and operated business. Heritage Water Tanks has an extensive network of locally based State Managers and Installers throughout Australia.

### Tank Walls

Our water tank walls are constructed using 1mm materials supplied by BlueScope Steel and is available in either Streamline or Corrugated profiles.

### Tank Liner

Our industrial strength liner is manufactured and assembled in Australia, is BPA free and is certified and fully compliant with Australian Health Standard, 'Testing of products for use in contact with drinking water.' AS4020: 2005 (For more liner information see on reverse page.) Our liner is also extensively used by public water utilities throughout Australia for domestic drinking water supply.

### Roof Trusses

Our roof trusses are constructed with 50mm x 50mm RHS Galvanised Steel. Components. Heritage Water Tanks only uses quality high tensile bolts and metal fittings.

### Tank Gutter System

We offer the option of a water collecting Gutter System which can save an extra 20,000l each year in a 500mm rainfall zone (based on a 110,000L rainwater tank). The Heritage Water Tank Gutter System is also approved by the National Smart Approved WaterMark Program.

### Warranty

We offer a 20 year ProRata Warranty. This is based on the repair value of the product at the time the warranty is required. (Other companies may offer a longer warranty, but repairs are often based on the value of the product at the time of purchase)
